## **AMOENA. YOUR SOLUTION.**

**Amoena – Your partner to accompany you along your way, committed to supporting you rebuild your confidence.**

Trust and experience are two major foundations of our company. Our history is characterised by quality, innovation, decades of medical knowledge and our constant striving for the best materials and technologies. Our passion becomes your solution – from diagnosis to your return to everyday life. We are more than just a company, we are there for you on your journey after a breast cancer diagnosis to make your life easier. Our customised solutions are designed with functionality in mind, they're also about style, because you deserve to feel great in every situation.

**Let's be strong together. #EmpoweringWomen**

# AMOENA'S COMMITMENT TO HIGH QUALITY

More than 16,000 specialist retailers worldwide trust in our products. Thanks to them, ever since 1975 we have been able to provide more than 30 million women with optimal product solutions for recovery care, breast forms and lingerie.

✓ **A perfect fit**

✓ **Smart sizing**

For in-between cup sizes and smaller bra bands

✓ **Tried-and-tested sizing system**

✓ **Easy to use**

✓ **Wide range of products**

✓ **Medical devices**

✓ **Oeko-Tex-100 certified materials**

✓ **Pollutant-free**

✓ **Sustainable materials and work processes**

We constantly strive to use sustainable materials and raw materials and will continue to expand their use in our collection for the future. We continuously revise and optimize our work processes, also under the aspect of sustainability.

# PATIENT JOURNEY

## DIAGNOSIS

## TREATMENT

### PRIMARY SURGERY OPTIONS

- Breast conservation surgery
- Mastectomy
- Primary reconstruction

### ADDITIONAL THERAPIES

- Endocrine therapy
- Chemotherapy
- Radiotherapy

### SECONDARY SURGERY OPTIONS

- Reconstruction using implant
- Reconstruction with autologous transplant

## SCAR-THERAPY

After the wound healing phase, from approx. 2 weeks to 2 years after surgery

### SCAR CARE

- Combination therapy with silicone and compression aids optimal scar treatment

Wound healing phase, until approx. 6-8 weeks after surgery

### PRIMARY CARE

- Compression bras with sewn-in pockets for the stabilisation of the surgical site and to support the healing of the wound
- Priform breast form with lightweight fibrefill

## RECOVERY CARE

WHERE HEALING BEGINS

## BREAST FORMS AND SHAPERS

WHERE CONFIDENCE GROWS

# RECOVERY

Permanent supply after the primary treatment or after the post-operative phase

- CuraLymph Comfort
- Lingerie & swimwear
- Light weight silicones
- (Balance) Adapt Air

## LINGERIE AND SWIMWEAR

WHERE EVERYDAY LIFE CONTINUES

## LYMPH CARE

WHERE THE FLOW BEGINS

# AMOENA INNOVATIVE TECHNOLOGIES

Constant innovation and setting new standards are driving forces at Amoena. In close cooperation with doctors, medical retailers and women who have had breast surgery, we continuously develop new technologies to optimally respond women's needs after breast surgery.

**AirChamber**

## Easy adaptation thanks to innovative AirChamber Technology

Innovative AirChamber Technology allows the volume to be adjusted for the best possible fit to your individual needs, even on an uneven chest wall.

**AdjustableBack**

## Flexible, individually adjustable back

Particularly close fit even with uneven chest wall.

**Comfort+**

## Temperature regulations thanks to Comfort+ technology

Comfort+ technology ensures constant, gentle temperature regulation between the body and the breast form, preventing unpleasant heat build-up and perspiration.

**InTouch**

## Soft, natural feel thanks to InTouch silicone material

Special silicone formula in combination with a soft, smooth film for a breast form that looks and feels as natural as possible.

**AirVentilation**

## Integrated air circulation

A structure consisting of three-dimensional pearls on the back of the form ensures air circulation and allows moisture to evaporate. This has been confirmed by Hohenstein Laboratories in Germany after extensive testing.

**Contact**

## Self-adhesive back provides security and ensures the most natural movement of the form

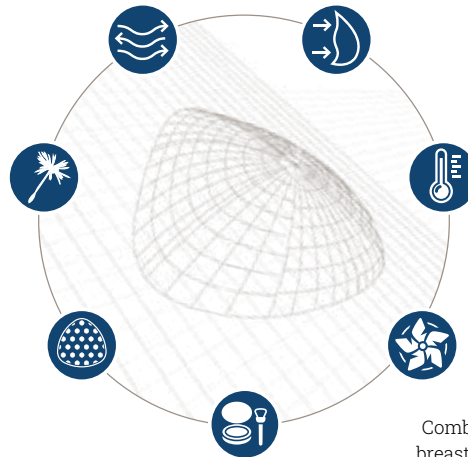

Amoena Contact adheres directly to the skin without the need for any additional adhesive materials. Adapts especially well to the movement of your body.

**Cosmetic**

## Cosmetic – Natural look and feel

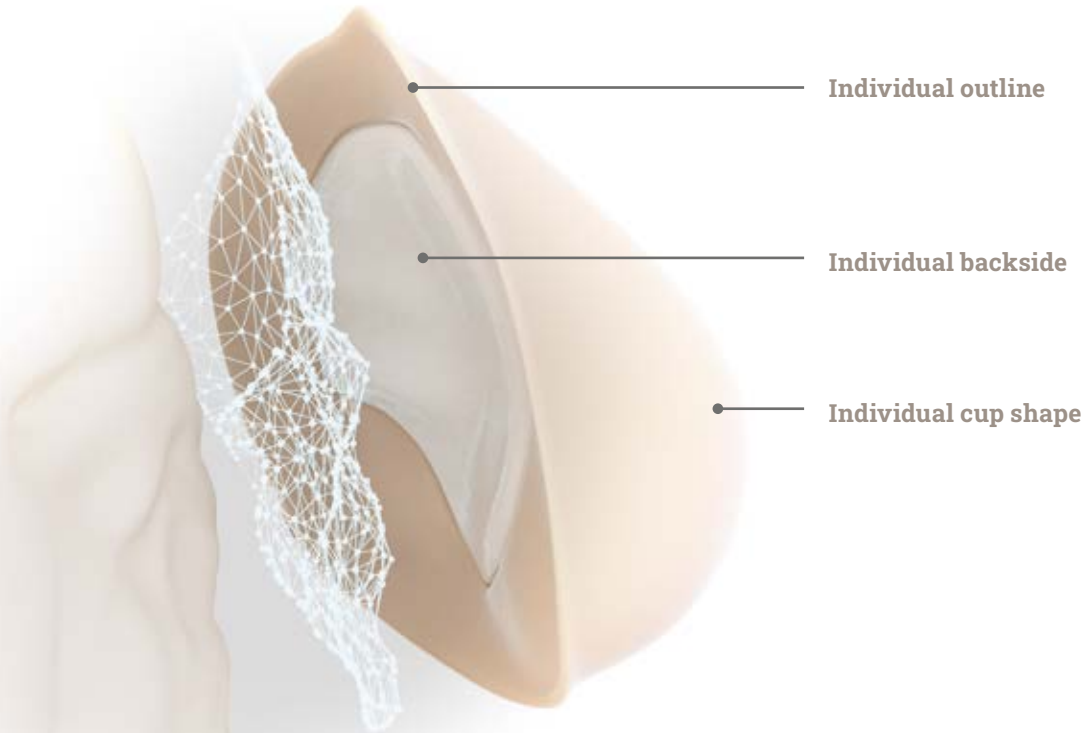

Combination of standard and lightweight silicone for a lighter breast form (approx. 20 % lighter than standard) with ultra-soft feel that adapts well to the movement of the body.

# CUSTOM-MADE BREAST FORMS

## *The Unique*

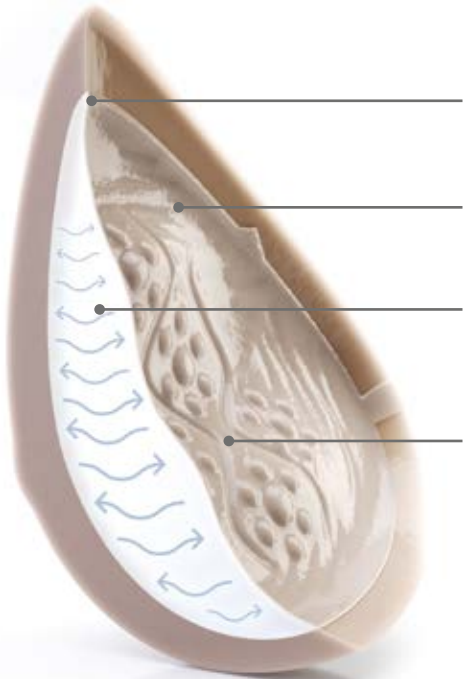

Our custom breast forms are made especially for you and will restore your natural shape, bringing both your silhouette and your life back into balance. Innovative 3D scanning technology enables us to create a breast form that matches your precise contours, for a made-to-measure result.

# ADAPT AIR BREAST FORM

*The adaptable*

Enjoy life, feel comfortable in your own body, wear your favourite clothes and feel carefree again. **The gold standard in breast care** – also available as breast shapers.

## Flexible, individually adjustable back

Particularly close fit even with uneven chest wall.

## Comfort+ technology

For less heat build-up and perspiration behind the breast form

## Air chamber technology

Precisely and individually adjustable in volume

Matt-soft **special membrane** and **premium silicone** for a comfortable wearing feeling. Lightweight thanks to **InTouch Light or Xtra Light silicone** (25% to 40% lighter)

Our innovative product designs have been awarded recognition by:

# CONTACT BREAST FORM

## *The self-adhesive*

The Contact breast form moves with the body like a natural breast. It relieves the shoulders and neck thanks to its direct adhesion to the body and gives you more flexibility in your choice of clothing.

### **Comfort+ technology**

For less heat build-up and perspiration behind the breast form

Matt-soft **special membrane** and **premium silicone** for a comfortable wearing experience

Lightweight thanks to **InTouch Light silicone** (25% lighter)

# MY COLOUR. MY STYLE. MYSELF.

## Find your colour.

Find your new favourite colour – with our new shades, Amoena post-mastectomy bras once again have what it takes to become your new favourite. We've expanded our basic colour range to include the new skin tone Mocha, which means we can now truly offer the right shade to suit every skin type. The elegance of this new colour will flatter any woman, but especially those with darker skin tones. The colours Sand and Blush complement the colour range perfectly. Whether light- or dark-skinned, tanned or pale – the Amoena skin colours have a natural beauty with something for everyone.

Chic underwear meets medical expertise: each product is crafted by our designers with a wealth of experience and attention to detail. The result: perfectly fitting bras in a vast range of colours, styles and sizes, all with invisible prosthesis pockets and comfortable straps. We also, of course, offer briefs to match.

# MATERIALS

Our special bras and swimwear are made with only the highest quality materials.

## OekoTex®

OEKO-TEX® STANDARD 100 is one of the world's best-known labels for textiles tested for harmful substances. The OEKO-TEX® testing institutes use it for the globally standardised certification of the safety of textile products in terms of human health. This involves subjecting not only the textiles themselves, but also upstream products and all the components of the product to thorough testing. Products that pass this test are permitted to bear the label "OEKO-TEX® STANDARD 100 - Textiles you can trust." The certification is valid for one year. We only use materials certified by OEKO-TEX® in our production process.

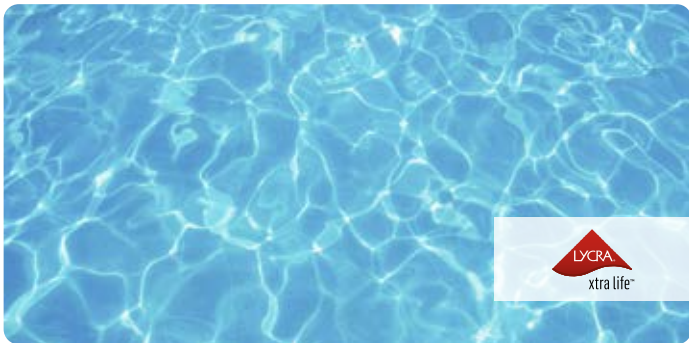

## TENCEL™ Modal

- TENCEL™ Modal fibres are derived from wood grown under controlled, sustainable forestry conditions
- These fibres are produced through an innovative process with low environmental impact
- TENCEL™ fibres are very soft and breathable
- TENCEL™ is a trademark of Lenzing AG

## Bamboo

- Bamboo is a renewable resource
- It is an environmentally friendly fibre thanks to its lower water consumption, fast regrowth and pesticide-free cultivation
- The bamboo cellulose is manufactured by a viscose process and the resulting fibres can be processed into various textiles. Materials can be lightweight, breathable and have natural antibacterial properties.

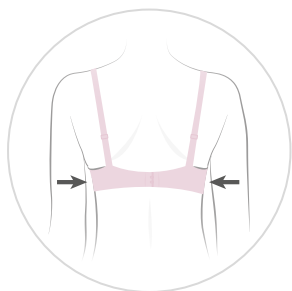

## LYCRA® XTRA LIFE™

- LYCRA® XTRA LIFE™ Elastane ensures long lasting fit and shape retention
- It is up to 10x more resistant to harmful effects of the swim environment like suntan lotion, heat and chlorine than unprotected Elastane
- Swimwear looks like new for longer
- LYCRA® XTRA LIFE™ is a trademark of The LYCRA Company

# PERFECT FIT

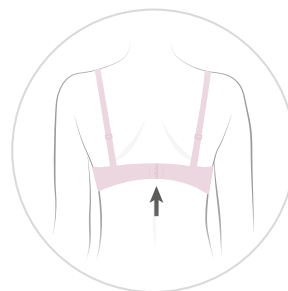

BRA / SIZES  
FINDER

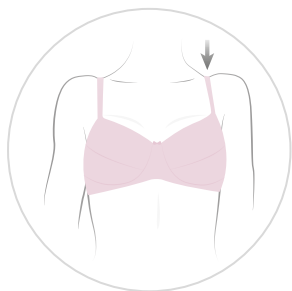

## Underbust band too tight

The underbust band feels too tight and uncomfortable. Try a larger underbust size or use an Amoena bra extender. Make sure the underbust fits properly: It should sit securely in place but still be comfortable and run in a straight horizontal line.

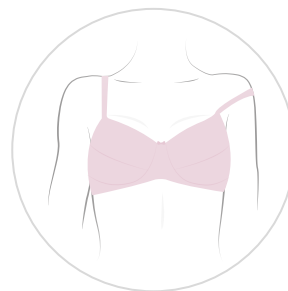

## Underbust band too loose

The underbust band is loose and slides up and down at the back. Choose a smaller underbust size. Make sure the underbust fits properly: It should sit securely in place but still be comfortable and run in a straight horizontal line.

## Bra straps are digging in

In this case, the straps may need to be loosened slightly. Alternatively, for a larger underbust, a wider strap may be required. If this does not solve the issue, the underbust band may be causing the issue (see above).

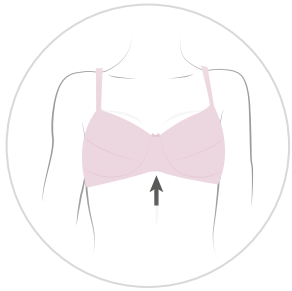

## Bra straps are slipping down

The straps on the bra slide off the shoulders. Generally, tightening the straps slightly should solve this issue.

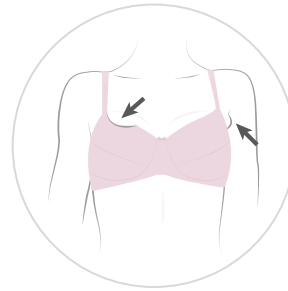

<https://www.amoena.com/uk-en/amoena-bra-size-calculator/>

# WHAT TO CONSIDER

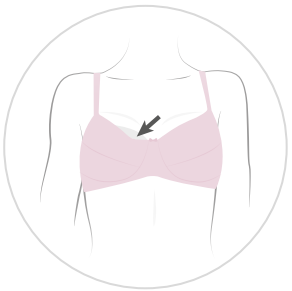

## Bra keeps sliding upwards

If the slightest movement causes the bra to slide up, this is a sign that the underbust band of the bra is too wide. Choose an underbust band one size smaller and a cup one size larger

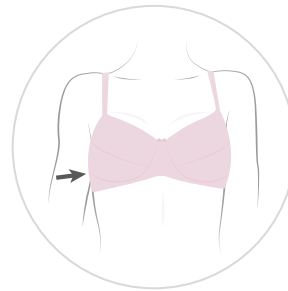

## Bra cup digs in

If the cup squeezes or presses the breast in certain places, this usually means the cup is too small. Choosing a larger cup size will usually solve this issue.

## Bra cup protrudes

If tightening the bra straps doesn't make the gaps or folds in the cup disappear, try a smaller cup size.

## Bra underwiring digs in

For a perfect fit, the underwiring should follow the shape of the breast, gently enclosing it. The centre of the bra should sit close to the body. If the underwire digs in, the cup is probably too small. Choose a larger cup size and, if necessary, a smaller underbust

<https://www.amoena.com/uk-en/amoena-bra-size-calculator/>

*Elegant*

This feminine lingerie adorned with pretty lace looks great and is comfortable too.

## ALINA

Soft Bra

premium

44509
